ABDULRAHMAN H. ALSAAFIN

abdulrahman.alsaafin.work@gmail.com ❖ +63 906 861 4002 ❖ Las Piñas City, Philippines

PROFESSIONAL SUMMARY

Full-Stack Web Developer proficient in front-end and back-end development. Combines technical expertise in building responsive web applications with strong customer service experience to create user-centric solutions. Possesses hands-on experience in PC building, hardware troubleshooting, and microcontroller programming using Arduino.

WORK EXPERIENCE

Teleperformance - Nicholas Holiday **Oct 2024 - December 2024**

Customer Expert *Sucat, Parañaque City*

- Assisted customers with product assembly and delivered step-by-step troubleshooting for Christmas lighting and artificial tree hardware issues.
- Handled the full lifecycle of product claims, including evaluating warranty eligibility, processing return and refund requests, and scheduling replacements.

Teleperformance - Byram Healthcare **Jan 2025 - April 2025**

Customer Expert *Sucat, Parañaque City*

- Managed patient accounts within the Diabetes line of business, processing recurring supply orders and tracking shipment statuses.
- Proactively informed patients of upcoming reorder dates and delivery updates, ensuring seamless continuity of essential medical care.

PROJECTS

Datamex College of Saint Adeline Management System **Sept 2025**

Full-Stack Developer

- Engineered a multi-role web application with role-based authentication, providing tailored portals for Administrators, Registrars, Teachers, and Students to manage academic and financial records securely.
- Implemented core portal features including teacher grade and attendance input, real-time student performance tracking, and Registrar module management for tuition balances and payment status.

Noir Puff (Perfume E-Commerce Platform) **March 2026**

Full-Stack Developer

- Implemented core online retail features including product catalog browsing, item detail views, a shopping cart, and a complete order checkout process.
- Developed database schemas and back-end logic to handle product inventory, user orders, and transaction processing.

EDUCATION

Datamex College of Saint Adeline **2023 - 2027**

Bachelor of Science in Information Technology *Parañaque*
